Our Products

Shotwell Hydrogenics produces registered FDA hand sanitizers formulations in their Midland, Texas facility. Our hand sanitizers consist of 70% (v/v) isopropyl alcohol and 70% (v/v) ethyl alcohol.

About Shotwell Hydrogenics

Shotwell Hydrogenics is a chemical manufacturing facility, specializing in performance monitoring and chemical management services, including water-soluble toll blending, chemical selection, and verification.

Our Certifications

The Midland, Texas-based facility is ISO9001:2015 certified and has a rigorous quality control and assurance program.

Our Capacity

Our state-of-the-art, highly automated facility has open capacity and can produce up to 1MM+ gallons of product per month.

Drug Facts | FDA Labels

[Labels and Drug Facts](#) for all Shotwell Hydrogenics hand sanitizer formulations can be found on DailyMed, the official provider of FDA label information.

Packaging

Our hand sanitizer is produced for bulk shipments and supplied in tote containers of 330 gallons. All shipments are FOB from our Midland, Texas facility.

Need consumer sized bottles? We can connect you with our trusted U.S.-based bottling partners to package hand sanitizer in a variety of sizes or work with tankers.

Formulation & Ingredients

We source high-quality active ingredients and raw materials for all formulations. We exceed the CDC recommended 60% (v/v) alcohol content. Safety Data Sheets are available for all products.
