— OUR PRODUCTS

Shotwell Hydrogenics produces registered FDA hand sanitizer formulations in their Midland, Texas facility. Our hand sanitizers consist of 70% (v/v) isopropyl alcohol and 70% (v/v) ethyl alcohol in both liquid and gel formats.

— OUR CERTIFICATIONS

The Midland, Texas-based facility is ISO9001:2015 certified and has a rigorous quality control and assurance program.

— DRUG FACTS | FDA LABELS

Labels and Drug Facts for all Shotwell Hydrogenics hand sanitizer formulations can be found on DailyMed, the official provider of FDA label information.

— PACKAGING

Our hand sanitizer is produced for bulk shipments and supplied in tote containers of 330 gallons. All shipments are FOB from our Midland, Texas facility. Need consumer sized bottles? We can connect you with our trusted bottling partners across the USA. We can also work with Tankers.

— FORMULATION & INGREDIENTS

We source high-quality active ingredients and raw materials for all formulations. Safety Data Sheets are available for all products. Our Isopropyl Alcohol and Ethyl Alcohol are USP-Grade, and our gelled products have an average viscosity >5500 cPs.

— OUR CAPACITY

Our state-of-the-art, highly automated facility has open capacity and can produce up to 1MM+ gallons of product per month.
